Circle the name of one judge to whom you are applying and indicate which semesters you are available by marking Xs in the blanks. For example, if you are applying to Judge Ezra, circle his name and mark X in the blanks for one, two, or all three semesters that internships may be available with him. If you are applying to other judges, fill out separate forms for them.

Attach the completed form to the materials you are submitting to the judge whose name you circled. The *Pre-graduation Judicial Internships* brochure and the *Federal Court Judicial Internships Application Announcement* explain what materials to submit to submit to which judges

The more flexible your preferences, the more likely you are to be offered an internship. "NA" means that an internship is not available with a particular judge during a particular semester.

If you are applying to five judges you should be providing five batches of application materials to the Receptionist, each with a Judicial Internship Form.
